I suggest you enter a classroom and tell people that you will take them as hostages. Make everyone get in one corner and then open fire.

Make sure that there is no way that someone can disarm you as it is possible. I suggest you carry a knife on your belt as last resort if someone is holding your gun.

You might want to target a girls school which is safer because there are no beta males throwing themselves for their rescue.

Do not use a shotgun. I would suggest a powerful assault rifle and a pistol or 2x pistols. Possibly the type of pistols who have 15+ ammo
