#### **Intention and Objective**

Our intention is to bring awareness to the public and collective consciousness, by means of peaceful, lawful protest in person and online, of the potentially unethical, negative influence that companies, corporations, shareholders, corporate board members, and influential figures may have on the access and promotion of disclosure related information. This is, in fact, media centric CONTROL of the information most widely promoted in both ufology and the metaphysical/spiritual/consciousness communities.

Would you trust profit-driven companies or organizations to control FULL DISCLOSURE INFORMATION? Profit-based decisions do NOT equate to moral truth or higher vibration-based decisions. They are usually focussed on the profit interests of the company without regard for ethics or even truth. When money is involved truth and morals go right out the window if your a Corporate sellout or a Hollywood wanna be. Since we don't trust the government with Full Disclosure and we know the vast amount of influence that private INDUSTRY has OVER the Government, so WHY would we trust ANY company to have the people's best interests at heart? The logic is simple, You Can't! If you know it is happening or can happen, then you need a peaceful but effective way to to make others aware of the situation.

As Full Disclosure draws near, it is VITAL that ALL information from new and OLD sources be made available. Corporate suppression, and even bullying, is NOT acceptable for any reason. WE, THE PEOPLE, HAVE THE RIGHT [AND RESPONSIBILITY] TO DISCERN FOR OURSELVES WHETHER TO ACCEPT OR REJECT THE AVAILABLE INFORMATION. Can you have true self sovereignty if you DO NOT have all relevant information from which to draw your own conclusions? Hollywood-centric media companies are by nature, NARRATIVE Creators/Controllers/Distributors of information similar to NEWS outlets.

It has come to the communities attention that BUSINESS and PROFIT entities are aggressively seeking to control dissemination of information with regards to particular research and testimony in our Disclosure-Related communities. Reports of blacklisting and company take-over of streaming and distribution rights are rampant over social media. More concerning by far is the fact that information is withheld or shelved until it has given over ownership or even limited control via a business contract with a corporate entity. Corporations and profit driven unscrupulous policies have ruined our world in many ways and on vast scales. There are countless correlations and parallels to be seen when companies take over any INDUSTRY. Awareness is crucial and your support in any fashion is most welcomed.

### **CLE Conscious Life Expo - Affiliate of Gaia TV - Gaia TV has Exclusive Streaming Rights.**

“Conscious Life Expo allegedly blacklisted Mike Bara, Patty Greer, and Corey Goode from their event because Gaia Inc. purchased a controlling interest in their streaming rights shortly after Goode’s resignation. When CLE organizers were asked about the blacklisting they replied with emails denying Gaia manipulation, acknowledging their new partnership with Gaia and claiming disturbing information about Goode will soon come out.

Phone: (213) 978-1660 Fax: (213) 978-1668 E-mail: [rabbi.allen.freehling@lacity.org](mailto:rabbi.allen.freehling@lacity.org)

### **Can my free speech rights be restricted because of what I want to say – even if it’s controversial?**

No. The First Amendment prohibits restrictions based on the content of speech. Police and government officials are allowed to place non-discriminatory and narrowly drawn “time, place and manner” restrictions on the exercise of First Amendment rights.

### **Where can I engage in free speech activity?**

Generally, all types of expression are constitutionally protected in traditional “public forums” such as public sidewalks and parks. Public streets can be used for marches subject to compliance with the City’s permitting process.

### **Do I need a permit before I engage in free speech activity?**

Certain types of events require permits. Generally, these events include:

- (1) a march, parade or stationary event which causes an interruption in the normal use of the public streets or sidewalks (i.e., blocking pedestrian or vehicle traffic or partial/full street closures)
- (2) marches, parades or rallies at City parks, or certain designated non-City parks or plazas, such as federal

property managed by the General Services Administration. The City permit scheme allows for the imposition of certain conditions on permits granted for these events, such as changes to the route of a march or limitations on the sound levels of amplified sound. A permit cannot be denied because the event is controversial or will express unpopular views.

**Be Aware:**

**If organizers have not obtained a permit, where can a march take place?**

A. If marchers stay on the sidewalk and obey traffic and pedestrian signals; their activity is constitutionally protected even without a permit. Marchers may be required to allow enough space on the sidewalk for normal pedestrian traffic and not unreasonably obstruct or detain passers-by.

**Can a speaker be silenced for provoking a crowd?**

Generally, no. Even the most inflammatory speaker cannot be punished for merely arousing the audience. A speaker can be arrested and convicted for incitement if he or she specifically advocates violence or illegal actions and where those illegalities are imminently likely to occur.

**Do counter-demonstrators have free speech rights?**

Yes. Police are permitted to keep two antagonistic groups separated but should allow them to be within the general vicinity of one another.

**What other types of free speech activity are constitutionally protected?**

The First Amendment can, under certain circumstances, protect communication such as theater, music, film and dance. Symbolic acts and civil disobedience that involve illegal conduct may be outside the realm of constitutional protection and may lead to arrest.

**What should you do if an unlawful assembly is declared and a dispersal order given?**

Listen carefully to any police order to disperse. Even if you are not engaged in unlawful activity, you are subject to arrest if you do not leave the area defined by the police in their order to disperse. For example, where some individuals are blocking a street and some individuals are walking on the sidewalk, the police may order everyone to leave the area.

**Am I able to carry signs to hold up during a demonstration?**

Los Angeles Municipal Code Section 55.07 makes it a misdemeanor to possess during a demonstration, rally, picket line or public assembly any length of lumber, wood, or wood lath unless it is one-fourth inch or less in thickness and two inches or less in width, or if not rectangular, not more than three-quarters inch in its thickest Dimension.

**Can I be arrested during a demonstration?**

Yes, if you engage in unlawful behavior.

Additionally, LAPD may treat “non-cooperation” with the arrest process as a separate offense of interfering/resisting a police officer under Penal Code Section 148.

### **If you take part in a protest**

#### **You may:**

Distribute leaflets, flyers or other literature on your own property or on public sidewalks, parks and plazas  
Picket or protest on public sidewalks, parks and plazas so long as sidewalks and building entrances are not blocked  
Chant or sing protest songs on public sidewalks, parks and plazas.

#### **You may not:**

Block access to sidewalks or buildings  
March in the streets without a permit  
Disrupt counter-protests  
Engage in speech that is obscene, makes knowingly false statements of fact, or that is likely to incite an immediate disruptive or dangerous disturbance

### **FAQs**

#### **Where may I engage in free speech activity?**

Generally, all types of expression are constitutionally protected in traditional "public forms" such as streets, sidewalks, parks and public plazas. California permits speech activities, such as handout leaflets, in facilities operated by state and local governments and open to the public as long as they do not significantly disrupt the normal operations of the facility. These speech protections do not apply to federal government facilities, such as the interiors of federal office buildings or courthouses, where significant restrictions on activities such as chanting, handing out leaflets, etc. may apply. In addition, free-speech activity generally cannot take place on private property absent the consent of the property owner, except where the property is open to the public in the same way as a public street or park, like a shopping mall, but not a strip mall, or in front of big box stores. Shopping malls must allow speech activity subject to reasonable time, place and manner rules—ask your local mall for their rules.

#### **Do I need a permit before I engage in free speech activity?**

Not usually; however, government may require permits for certain types of events. Generally, these events are: 1) a march or a parade that does not stay on the sidewalk, and other events that require street closures; 2) a very large rally; and 3) activity which obstructs vehicle or pedestrian traffic. Many permit procedures require that applications be filed with the police department or the city or county well in advance of the event. However, the government must allow you to obtain a permit on short notice if the event is organized in response to unforeseeable and recent occurrences.

#### **If organizers have not obtained a permit, where may a march take place?**

In general, if groups of individuals stay on the sidewalk and obey traffic and pedestrian signals, their activity is protected. They may be required to allow enough space on the sidewalk for normal pedestrian traffic and may not obstruct or detain passers-by. It is always advisable to check with the city or the police to find out about permitting requirements—contact your local ACLU affiliate if the requirements seem unreasonable.

#### **May I distribute leaflets and other literature on public sidewalks?**

Yes. Pedestrians on sidewalks may be approached with leaflets, newspapers, petitions and solicitations for donations. Tables may also be set up on sidewalks for these purposes as long as demonstrators do not block entrances to buildings and passers-by are not physically detained. No permits are required.

#### **Do I have a right to picket on public sidewalks?**

Yes. No permit is required to picket, but it must be done in an orderly, non-disruptive fashion so that pedestrians can pass and entrances to buildings are not blocked. Pickets are not required to keep moving but may remain in one place as long as they leave room on the sidewalk for others to pass.

**Do counter-demonstrators have free speech rights?**

Counter-demonstrators should not be allowed to physically disrupt the event they are protesting, but they do have the right to be present and to voice their displeasure. Police are permitted to keep two antagonistic groups separated but should allow them to be within the general vicinity of one another.

**Are you allowed to disrupt another person's speech?**

In the context of a public meeting, although the law is not settled, heckling should be protected unless you are attempting to physically disrupt an event, are drowning out the other speakers or otherwise substantially disrupting the event in a way that is not customary for the event.

**Is it legal to silence a speaker for provoking a crowd?**

Generally, no. Even the most inflammatory speaker cannot be punished for merely arousing the audience. A speaker can be arrested and convicted for incitement only if s/he specifically advocates illegal actions and only if those illegalities are imminently likely to occur.

**May the government impose a financial charge for exercising free speech rights?**

Some courts have permitted charges that cover actual administrative costs or the actual costs of rerouting traffic. However, if controversy or the content or viewpoint of the speech is used to apply higher costs— such as requiring a large insurance policy — or if the charges are entirely arbitrary, then the courts will not permit it. Regulations with financial requirements should include a waiver for groups that cannot afford the charge. Check to see if other groups have been granted waivers in the past—if so, denying your group a waiver may be discriminatory.
